PORTFOLIO

CONCRETE

CONCRETE

Gridinta has extensive experience undertaking projects related to concrete in many different industry sectors, including transport, civil and industrial construction, marine, wind energy, rail and nuclear power.

Since concrete is the most widely used construction material on the planet, emphasis on quality, performance and sustainability is essential.

Concrete services and modifications:

- Condition surveys and inspections
 - Concrete structure reinforcement using carbon fiber
 - Bridges, tunnels, railways and other constructions
 - Concrete structure repair
 - Concrete works using Sika materials
-

CERTIFICATES

Gridinta technicians hold all necessary certifications to ensure efficient flow of procedures as well as the adherence to health and safety regulations at the work place.
